DETAILED ACTION

1. The amendment filed 12/29/04 has been entered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 38-42 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims are substantial duplicates of allowed claims 18-22. Therefore, the scope of these claims is not clear. This rejection is based on Multiplicity. See MPEP § 2173.05(n).

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 23-29 and 33-37 are rejected under 35 U.S.C. 102(b) as being anticipated by Muller (US 3,897,051). Muller discloses a sheet folding and accumulation device that includes a folding mechanism (26); a saddle (30); and an inverting mechanism (28).
6. Claims 23-29, are rejected under 35 U.S.C. 102(b) as being anticipated by Mebus. Mebus discloses a sheet folding and accumulation device that includes a folding mechanism (50); a saddle (22); and an inverting mechanism (14).

Claim Rejections - 35 USC § 103

Art Unit: 3651

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 33-34 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mebus in view of Muller. Mebus discloses a method of accumulating sheets that includes folding a sheet with the peak of the fold pointing upward (50); inverting the sheet (14); and forming a stack on a saddle (22). Mebus discloses all the limitations of the claims, but it does not disclose binding the stack. However, Muller discloses binding a stack of sheets for the purpose of forming a booklet. It would have been obvious for a person of ordinary skill in the art at the time of the applicant's invention to modify Mebus by utilizing a binder for the purpose of forming a booklet.

Allowable Subject Matter

9. Claims 2-16 and 18-22 are allowed.

10. Claims 30-32 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

11. Applicant's arguments filed 12/29/04 have been fully considered but they are not persuasive. The applicant states that neither Mebus nor Muller discloses lifting a trailing edge of a sheet and lifting it over the leading edge. In response, see Mebus Fig.6 and Muller Fig. 2.

Conclusion

Art Unit: 3651

12. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
